

MANAGING STUDENT CONTRIBUTIONS

Once an activity has been published in a Langblog, students can publish their video or audio making a contribution/comment for this activity. Once a contribution has been published, it cannot be deleted by any students, not even the author.

Teachers can manage these contributions from Administration: it is possible to delete, unpublish or edit contributions/comments if necessary.

To manage contributions go to Administration, and click on Comments.

In the Contributions/Comments administration area the options are available: unpublish (unapprove), reply, edit or delete (trash).
